

About Angie Hudson Designs

About Angie Hudson Designs

ABOUT ANGIE HUDSON: After 10 years in architecture and a further 10 years designing for top kitchen companies, Angie wanted the freedom to design without limitation of company, or industry standards and to personally select suppliers and manufacturers who could do justice to her unique designs... and your dreams. Angie Hudson Designs was formed in February 1998.

DESIGN:

Using Computerised design technology, our design expertise includes; kitchens, bathrooms, studies, bars, built-in cupboards, bedroom furniture, dining room furniture, TV/wall units, office & board room units, wine cellars and shop fitting.

We give special care and attention to find out what YOU (the client) really want and need within the parameters that YOU (and the given space) determine. We appreciate that you are making a financial commitment for something that you will be living with for many years and we take the project as seriously. Innovative designs are all based on tried and successful principles. By combining creativity with a practical approach, these designs are workable, and will reflect and enhance your lifestyle

PRESENTATION:

No Guessing – Our presentation includes: – A full set of Plans (to scale, fully labelled and showing all dimensions), Elevations, Colour Perspectives, Detailed costing, Optional Worktop/Granite quotes, Optional Appliance quotes and Optional

Accessories quotes. We also offer a design only service, with optional additional services available. (See Services Rate Sheet).

MANUFACTURING:

We use expert manufacturers backed with highly-experienced teams specialising in custom-made cabinetry – thus allowing us, and YOU, unlimited choices in styles and finishes to best suit your project. Only quality materials and methods of construction are used

INSTALLERS:

We use experienced Installers, having a mastery of their trade with a comprehensive knowledge of the various skills required to successfully complete the installation of your project.

GRANITE:

Good relationships coupled with the volume of work we do with leading granite suppliers gives us the muscle to get you competitive prices, reliable service and quality workmanship.

APPLIANCES:

We are agents for all leading brand names of appliances. Once again, our volume and relationships with suppliers allow us to secure the appliances you require at competitive prices.

ACCESSORIES:

From taps and sanitary ware, through to chairs, flooring and furniture, we have a comprehensive library for you to choose from. We can either supply you direct or refer you to the right people.

SITE SUPERVISION:

Should you wish, Angie Hudson Designs can be commissioned to

design, supply *and* supervise your project to completion. This includes: – consulting with your builder, plumber, electrician, tiler, painter, etc.; assisting you in sourcing and co-ordinating of goods and services; regular site visits while work is in progress. This resulting in you getting what you want with far less running around, at significant cost savings. **(See Services Rate Sheet).**

PERSONAL NOTE FROM ANGIE:

As the eldest daughter of a cabinetmaker and general Mr Fix-It, I started my love of sawdust and cement at an early age. I pride myself in being particularly sensitive to the character of the home, and the homeowner's lifestyle and requirements – transforming dreams into reality is my greatest reward. I am most motivated by the challenge of finding solutions, making something work, and am inspired by the seemingly impossible. Many of our completed projects have been featured in leading décor magazines. To date we have worked on referral business mostly, and often our associations with clients, their families and friends have gone on for years. For this I feel truly honoured and am sincerely grateful for their continued support. Thank you!

Please contact us for further details.

Yours sincerely,

Angie Hudson (Owner)
